

Tweens Improv-ing Social Skills Group

Mondays 6:00 - 7:00pm

We welcome students with Autism Spectrum Disorders (ASD) and related social concerns to join our structured and interactive social skills groups!

Would they benefit from being able to think on their feet?

Each group session focuses on learning about a specific topic & practicing those skills through role plays, video modeling, cooperative teamwork, & other interactive activities.

In our group, youth will improve their social skills by utilizing sketch comedy and improvisation acting games.

They will strengthen their understanding of common social skills such as:

- ❖ Starting Conversations
- ❖ Reading Social & Non-verbal Cues
- ❖ Developing & Maintaining Friendships
- ❖ Emotional Awareness & Regulation
- ❖ Recognizing Feelings in Others
- ❖ Dealing with Peer Pressure
- ❖ Flexible Thinking

Intake appointment required to determine the specific therapy needs of each client. Individual goals are established for each child with parent input on group topics and personal goals.
